

We at ALBAA would like to share our year end summary for 2020 to all our valued members. We started off 2020 with a successful Safety Day event before the Corona virus caused us to pivot. Being an events-based association, we decided to take advantage of this time and work internally.

Our bylaws were updated to help define each individual role for our team to allow us to be more efficient. A call for nominations was sent out to add spots on our current board to expand our abilities in the future. Additionally, we were still able to work virtually by conducting quarterly board meetings, while adding monthly check-in calls.

We have made improvements during this challenging year. This will ensure we are well prepared for 2021 and hosting events as soon as time permits.

Trevor Ross
ALBAA Board member
